Safety Poster Program Rules

THEME: WATER SAFETY

FCPTSA DEADLINE: NOVEMBER 20, 2026

The Safety Poster Program provides students in Pre-K through 8th grade the opportunity to design a poster using this year's theme, "Water Safety."

The theme was voted on by our Health and Safety Committee.

Each participant will receive a participation ribbon. Up to three (3) trophies will be awarded to students from each of the following categories:

Eligible Students: Pre-K - 8

Posters may include but are not limited to digital photo posters, handmade posters, or graphic design posters. Posters should be on a regular-size poster board. You may use 2D or 3D elements on the poster board. Submit a clear digital photo of the poster.

Each student must have a parent's signed entry form to participate in the Safety Poster Contest. The parent's name and email should be typed or printed clearly. The signature allows use of the student's name and personal images on social media/website. Each student will write a statement about their Safety Poster.

If any of these items are missing, the submission could be disqualified from the contest.

Email the completed entry form and a clear digital photo of the poster to frayseredu@gmail.com no later than November 20, 2026.

For questions or additional information, please contact FCPTSA at frayseredu@gmail.com.
